INTRO TO IT AND CYBERSECURITY

K!NETiC POTENTIAL

Career and Workforce Development
Certified Training Provider
Available Nationwide

Course Summary

The "Intro to IT and Cybersecurity" course is designed to provide the fundamental building blocks professionals require to enter the field of information security. Participants are introduced to basic information technology concepts and familiarized with the potential vulnerabilities, threats and mitigation tactics to protect data and systems. The focus on the Confidentiality, Integrity, and Availability Triad (CIA) along with access controls are covered in detail.

Why This Specific Course?

The CYB100 course is designed to provide a solid foundation in the field of project and program management for career changers and aspiring professionals. The course will provide you with career counseling to maximize your success as you launch your cybersecurity career, and most importantly, prepare you to take CompTia A+ certification, a nationally recognized credential desired by many employers.

Why Take A Course From KP?

KP has provided academic, social and professional development services to youth and adults since 2008. The firm's mission is to help all participants in our programs achieve their full potential. Our mission is to inspire the next generation of leaders: fully integrated into their community, engaged in a career of their choosing and living an independent life that fulfills their personal goals and desires.

What You Will Receive

A certificate of completion and CompTia A+

Target Career Occupations

The CompTia A+ certification will prepare you for the following positions and others like them:
