

# INTRO TO PROJECT MANAGEMENT

## Course Summary

The "Project Management I" Introduction course is one of the initial steps to a career in project management or program governance. It provides an overview of the key concepts and an opportunity to apply newly acquired knowledge in project-based settings. The course is designed to prepare participants for the Project Management Institute's (PMI) Certified Associate Project Manager (CAPM) exam. The cost for the exam is included with course registration.

## Why This Specific Course?

The PMG100 course is designed to provide a solid foundation in the field of project and program management for career changers and aspiring professionals. The course will provide you with career counseling to maximize your success as you launch your Project Management career, and most importantly, prepare you to take CAPM certification, a nationally recognized credential desired by many employers.

## Why Take A Course From KP?

KP has provided academic, social and professional development services to youth and adults since 2008. The firm's mission is to help all participants in our programs achieve their full potential. Our mission is to inspire the next generation of leaders: fully integrated into their community, engaged in a career of their choosing and living an independent life that fulfills their personal goals and desires.

## Target Audience

## What You Will Receive

A certificate of completion and CAPM Certification

## Target Career Occupations

The CAPM certification will prepare you for the following positions and others like them:

- Project Coordinator
- Business Consultant
- Business Analyst
- IT Consultant
- Associate Project Manager

## Timeline For Course

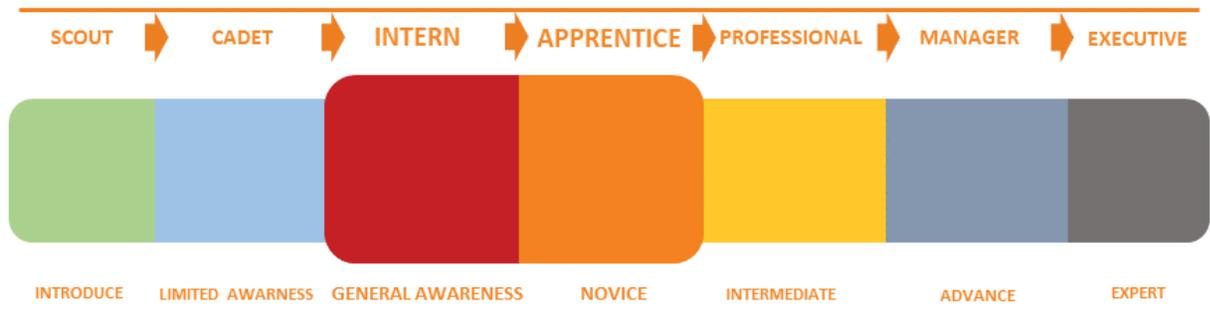

12 weeks but can be completed in as little as 6 weeks
